The meeting was called to order by Jimmy T. Tate, CCPRO Southeastern Regional Director. Dr. Mary T. Wood, President of James Sprunt Community College welcomed everyone to the James Sprunt Community College campus and thanked everyone for attending. Dr. Wood turned the meeting back over to Jimmy.

Jimmy asked if all the College planners present had already done their Peer Review. Some stated that they had completed theirs and others stated that they would conduct theirs in the near future. Jimmy also discussed the collection of college transfer data. On Mr. Bill Thompson's behalf, Jimmy suggested that all Colleges go as whole to try and collect data from the University system. The group agreed that would be a good idea. Mr. Keith Brown stated that he would be willing to help in any way he could in trying to collect this data. Jimmy turned the meeting over to Mr. Brown.

Keith Brown started off by saying that all performance funding did really well this year. The community college system was not able to collect data on Real Estate and Insurance, but was assured that they would be able to collect data next year. The number of schools passing rates has gone up this year. The Accountability Monitoring Committee will be meeting tomorrow, August 7 to discuss several things. One being when the Action Plan will be due for the standards that were not met. Keith stated that performance measures are in the legislature and cannot be changed. If you do have any changes that you would like to suggest, the suggestions will need to be submitted to Keith's office so that he can submit it to Mr. Kennon Briggs in September.

Dr. Betty Wilson (Adams) discussed items that would be on the agenda for the 2003 Conference. She also led a discussion on the Approval/ratifying of the mission statement. She announced that Central Piedmont Community College would be sponsoring the conference.
