On a scale of 1-5, with 1 being "not effective" to 5 being "very effective," please rate the following items.

1. Pre-conference publicity

not effective		2	4%
		5	10%
		11	22%
		16	32%
very effective		16	32%
Total		50	100%

2. Lodging facilities

not effective		0	0%
		0	0%
		10	21%
		21	44%
very effective		17	35%
Total		48	100%

3. Meeting facilities

not effective		0	0%
		3	6%
		14	28%
		22	44%
very effective		11	22%
Total		50	100%

4. Conference location

not effective		0	0%
		1	2%
		7	14%
		18	36%
very effective		24	48%
Total		50	100%

5. Vendor support

not effective		0	0%
		3	6%
		5	10%
		18	36%
very effective		24	48%
Total		50	100%

On a scale of 1-5, with 1 being "not effective" to 5 being "very effective," please rate the following sessions. Select number 6 if you DID NOT ATTEND that particular session.

MONDAY - FEBRUARY 25, 2008

7. GENERAL SESSION: People and Jobs on the Move

not effective		0	0%
		0	0%
		2	4%
		10	20%
very effective		33	67%
DID NOT ATTEND		4	8%
	Total	49	100%

8. GENERAL SESSION: Facilities Master Plan Requirements

not effective		0	0%
		7	14%
		4	8%
		18	37%
very effective		10	20%
DID NOT ATTEND		10	20%
	Total	49	100%

9. Newcomer's Session

not effective		0	0%
		0	0%
		2	4%
		5	10%
very effective		4	8%
DID NOT ATTEND		37	77%
	Total	48	100%

TUESDAY - FEBRUARY 26, 2008

10. Vendor Demonstration: Think Education Solutions

not effective		0	0%
		1	2%
		2	4%
		8	16%
very effective		6	12%
DID NOT ATTEND		32	65%
	Total	49	100%

11. GENERAL SESSION: CC Benefits Report Review

		0	0%
--	--	---	----

not effective		3	6%
		5	10%
		21	43%
very effective		14	29%
DID NOT ATTEND		6	12%
Total		49	100%

12. Concurrent Sessions A

Top number is the count of respondents selecting the option. Bottom % is percent of the total respondents selecting the option.	not effective	2	3	4	very effective	DID NOT ATTEND
Understanding Colleague Data for IPEDS.	0 0%	0 0%	4 8%	5 10%	18 38%	21 44%
Git-R-Done: Workunit Effectiveness.	0 0%	0 0%	1 2%	4 10%	0 0%	37 88%
Assessing the Health of Program Review.	0 0%	0 0%	2 5%	7 16%	6 14%	28 65%

13. Concurrent Sessions B

Top number is the count of respondents selecting the option. Bottom % is percent of the total respondents selecting the option.	not effective	2	3	4	very effective	DID NOT ATTEND
A Tutorial for the National Student Clearinghouse.	0 0%	0 0%	0 0%	10 22%	12 26%	24 52%

20. What information or session was the MOST useful?	
#	Response
1	SACS, Colleague, and updates
2	SACS and Datatel sessions were most useful. Also very much enjoyed hearing president-elect Scott Ralls perspectives.
3	SACS - Substantive Change
4	SACS and NCCCS Update
5	SACS Information, FMP session and NCCCS update
6	SACS/COC Substantive Change session
7	People on the move or the IPEDS one.
8	The SACS Substantive Change presentation.
9	Substantive Change
10	Understanding Colleague Data for IPEDS, People and Jobs on the Move
11	I was able to absorb data from areas that are not necessarily a part of my job. This enabled me to put a complete picture together of the planning that is done system wide.
12	SACS - Substantive Change
13	Understanding Colleague Data for IPEDS and National Student Clearinghouse
14	SACS and Learning Outcomes and much more on substantive change requirements.
15	The Browning and Graying of America. A real eye opener.
16	CCBenefits
17	SACS & Substantive Change
18	A tutorial for National Student Clearinghouse
19	It's difficult to say. Both Johnsons (demographer and SACS VP) were excellent.
20	Presentation from SACS liason.
21	Dr. James Johnson was a great speaker!
22	Understanding Colleague Data for IPEDS would have been the most helpful if it had not been so rushed. Fortunately, Matt gave a handout and makes his info available on his website. The most interesting session was People and Jobs on the Move (Dr. James Johnson).
23	As a researcher - I found Understanding Colleague Data for IPEDS to be the most useful. However, as a member of the IE team, SACS & Substantive Change was the most useful.
24	ASsessing the Health of Program Review
25	The whole conference was helpful to me as a new member of the group.

#	Response
21.	What information or session was the LEAST useful?
1	All provided information that I need.
2	Facility M. Plan - only because our college had already met with Tom Hunter and heard most of what he shared at CC PRO.
3	The presenter for program review information was wayyyy toooooo long winded. He could have presented the information in half the time.
4	Facilities Master Plan Requirements
5	All the LRP/FMP sessions--I don't work with this; as an office we're contracting it out. So it really was too much focus on something I have no involvement with.
6	the facilities master plan presentation
7	Facilities Master Plan
8	None - all sessions that I attended were useful.
9	Datatel using SPSS
10	They all served a purpose!
11	The newcomers secession should have been more than a reading of the FAQs from the website. SACS & Student Learning Outcomes (we never really got to this part of the presentation)
12	I didn't attend a session I could categorize as least useful
13	Business Meeting seemed long.
14	CC Benefits report review. Didn't we already know that all this company does is find other people's information and send it to us? That was a long way for the presenter to come to give that info. Also, the SACS person did not take enough time to answer questions on Substantive Change. That was probably the only thing that most of us were interested in; he could have eliminated the session on student learning outcomes and presented both sessions on Substantive Change. As usual for a SACS person, I thought he was vague on some of his answers. (What a surprise!)
15	I wouldn't say that any were "least" useful, but I would have enjoyed a little more involved Newcomer's session.
16	N/A.....EVERYTHING I attended was useful!
17	Master Facilities Plan is usually taken over by others outside typical IE office.
18	Vendor Presentations - Don't have money for products. :-(-
19	CC Benefits Report Review ... would have been most useful during LRP construction, esp. triangulation.
20	The CIS information. It was not very understandable, but not neccessarily because of the presenter.
21	All of the sessions that I attended were good. I had a hard time deciding which breakout sessions to attend. I went to the Colleague for IPEDS session but also really wanted to attend the Program Review session.

22. What would you like to see presented and discussed at a future conference?	
#	Response
1	More information on exactly what is "required" for IE, planning, and research. Discussions about who is doing what and how CCPRO can be involved more in the conversations in they system about planning & research. How do we facilitate support for research & planning at our institutions?
2	How about Roundtables with different topics where we share methodology, etc. Rotate tables every 30-45 minutes for a total of 3 table sessions.
3	I would like to see more information on using SPSS and the Datawarehouse to extract and manipulate data.
4	General discussion of how IE/IR departments are structured and specific roles of IE versus IR personnel.
5	Assessment of Student Learning Outcomes at course, program and institution level
6	Something that really gets into the nitty gritty of what fields in Colleague have the data we need.
7	Institutional Effectiveness
8	Continue emphasis on pertinent and timely topics, especially assessing student learning outcomes, SACS, and Datatel.
9	Good methods of data gathering by using surveys, through software especially.
10	More information on program review techniques and processes. Data Warehouse training - retrieving data, creating reports.
11	Compiling data from surveys.
12	More on recent changes in the accreditation standards and more information on required reports that must be monitored (especially for new CCPRO members)
13	More interesting and informative speakers such as we had this year. These speakers along with the various workshops makes a good combination and keeps the conference interesting.
14	Developing additional Training schedules and availability for researchers and planners
15	specific strategies for meeting critical success factors - best practices (how do you do your graduate survey? employer survey? program review? etc.
16	More from SACS, stuff on the Datawarehouse and datatel.
17	I really would like to see more presentations like Matt Smith's with plenty of time to go over various queries that we need for all the information we pull. He seems to have a wealth of knowledge that would be useful to all of us. I really would like to see useful information like his presented.
18	For those new to research & planning, the use of available tools and resources and samples of the products might be useful. I suppose we all assume folks can use the data warehouse, statistical data from the NCCCS website, Datatel standard reports, basics of US Census, BLSS, NC Employment Security Commission, DPI data on school performance, maybe even ask researchers to share a project, the queries, and results.
19	I would like to attend sessions about statistical techniques and data analysis.
20	Continue technical sessions with focus on CIS and IPEDs Accreditation issues
21	Re-accreditation issues Program Review Using Colleague data effectively

23. What suggestion/s do you have for a theme for next year's conference?	
#	Response
1	I need some time to think about this one.
2	Awash in a Sea of Data: Taming the Untameable (or alternatively, Calming the Waves). :-)
3	None at this time. I am new to CCPRO, so anything relevent is welcome!
4	Updates concerning SACS issues
5	The use and importance of web surveys in the planning cycle.
6	Accreditation Success from an Institutional Effectiveness perspective.
7	best practices in IE: collaboration is the key
8	Send conference information to College Presidents in addition to members. As a new employee, I was not on the radar and had to seek out the information on the meeting.
9	Core IE responsibilities and tools & techniques ... not applicable to everyone, since we all have different roles/responsibilities; however, may help those new and struggling.
10	Something having to do with Change coming from the System level... but suggest the theme not be change because people are scared to death of change.

24. What is your FIRST choice for the location of next year's conference? Check one.	
#	Response
1	Please strongly consider Atlantic Beach Sheraton
2	Pinehurst area is great.
3	Atlantic Beach, Wrightsville Beach
4	An accessible location on the coast.
5	Mt. Airy, Dobson, Winston-Salem
6	Little River again
7	Atlantic City
8	Asheville, Hickory
9	Atlantic Beach
10	Raleigh
11	atlantic beach, nc
12	Same place is OK ... decent compromise.
13	Charlotte or surroundig area
14	Wrightsville Beach / Beach

25. What is your SECOND choice for the location of next year's conference? Check one.	
#	Response
1	Holiday Inn Sunspree, Wrightsville Beach
2	Larger cities anywhere
3	Would return to LRGR in 2010
4	Raleigh-Durham Area
5	Pinehurst
6	Greensboro, Raleigh, Winston Salem
7	Little River Golf Resort is centralized and close
8	Raleigh
9	Asheville
10	Broyhill Conference Center .. Boone ? I know, WX
11	Charlotte or surrounding area

#	Response
1	It was my first CCPRO conference. I am looking forward to more.
2	Thank you for not committing our evenings to sessions & meetings. (Some conferences do and it is exhausting mentally.)
3	I would like to see more concurrent sessions. I like having choices. The general sessions are not typically relevant to me.
4	Very much enjoyed being with my counterparts. I learned so much!
5	Mark Puterbaugh did a great job as president and the Executive Committee worked together as a team to put together a great conference. Sandhills folks really laid out the red carpet as did the folks at LRGR.
6	All in all I thought it was again a good conference. I appreciate the tremendous amount of work that goes into planning this conference.
7	A well-organized, well-planned conference at an excellent location with many timely and interesting sessions.
8	Great conference....it was my first CCPRO conference and I can hardly wait for the next one. Great work!!
9	A very good conference. Excellent guest speakers.
10	Over all the conference was wonderful. I had the opportunity to meeting researchers from all over the state with wonderful ideas for improving our systems.
11	I'd like to see the conference in the western region, but any further west than Morganton and there is such a danger of bad weather at that time of year
12	This was a great conference with a VERY good program.
13	Probably the best thing about the conference is getting to know other researchers and planners and feeling like there is a network of people to help when needed. It's great to feel that others understand and appreciate the job that all of us are doing on our campuses. On our campus, sometimes I feel like I'm couped up in my office alone (with my computer) with little contact with others except when they need information. Making friends with others in our profession is a great plus!!!
14	Thanks to everyone for their hard work! The conference was very useful to myself and my colleagues.
15	Good job Kim and everyone else involved with the "grunt work"!
16	I really enjoyed getting to meet peers. More importantly, I feel more connected to my work. Thanks so much. I look forward to continued involvement and support from CCPRO.
17	Make sure the WiFi works at the hotel in all the areas!
18	Excellent conference ... one of the top three I've attended.
19	I thought this was one of the best conferences that I had attended. I commend the officers and anyone who had a part in it.
